STA220fall2016Grades

- read in the data (df=='grades')
- analyze grades
 - remove observations with missing values for the final (exams for 3 students still being checked and 1 did not take the exam)
 - four students have a penalty of 6.75 points on project for fabricating data. For the analysis add 6.75 points to project grade and final grade.
- convert all score to percents

```
